

## **Pulse signs €700k software deal**

**Dublin:** Irish hospitality software company Pulse Technology has signed a partnership deal worth an estimated €700,000 with British-based Rate Tiger — which works with the hotel industry in 60 countries.

The agreement will allow Rate Tiger customers to use the Pulse Technology software package Rate Wise, a yield management system which the company said has been proven to increase a hotel's revenue by between 5% and 12%.
